

# Kickstart your future in Animal Nutrition and Health

with our EMEA Trainee/Graduate Program!

Join us—feed the planet and shape tomorrow's Animal nutrition and health

## Ready to make a difference?

Our Trainee/Graduate Program EMEA is your chance to launch an international career, collaborate across cultures, and help build a more sustainable world.

We're looking for enthusiastic graduates eager to learn, innovate, and grow!

- 2-year EMEA experience—build expertise with real-world projects
- Work with top teams in animal nutrition, health, and innovation
- Grow your network, develop skills, and make a positive impact

## Who should apply?

Graduates with a digital mindset, strong collaboration skills, and a passion for improving lives. Fluent English and readiness to relocate temporarily (8 months) are mandatory

Startdate: September 1<sup>st</sup>, 2026

This position is part of the Animal Nutrition & Health Business, as part of the divestment to CVC capital. It is and will be an innovation focused, customer facing Animal Nutrition company, bringing together the capabilities that deliver value added, science based, integrated solutions for the global animal protein value chain. ANH is driven by its strong purpose: feeding the planet without costing the earth. Together, we make it possible. [www.dsm-firmenich.com/ANH](http://www.dsm-firmenich.com/ANH)
